

## **Resolution to Support Unity Reforms at the 2018 Chicago DNC Meeting**

Whereas, the Unity Reform Commission was established at the 2016 Democratic National Convention, the highest authority in the Democratic Party, which was unanimously approved by all in attendance at the 2016 Convention, in order to study and address concerns that arose regarding the presidential nominating process to review the nominating process to ensure that it is accessible, transparent, and inclusive;

Whereas, there are four specific areas of review that are set forth in the mandate,

- wherein the first area relates to the manner of voting during the presidential nominating process and making recommendations that will increase participation and inclusion in the primary process;
- the second area focuses on how to make the caucus process less burdensome and more inclusive, transparent, and accessible to participants;
- the third area of review relates to revising and reducing the role that unpledged delegates play in the process;
- the fourth area of review relates to party reforms with the specific focus on making our party and our candidates competitive in every region, broadening the Party's base, and empowering Democrats at the grassroots level, as well as expanding the Party's donor base;

Whereas, the Unity Reform Commission passed their recommendations to the DNC Rules and Bylaws Committee and the DNC Rules and Bylaws Committee has adopted the essence of those recommendations into official DNC documents with the goal of making the Democratic Party more democratic;

*Be it Resolved*, that the San Pedro Democratic Club calls on our DNC members to use their vote to support the reforms supported by both the Unity Reform Commission and the DNC Rules and Bylaws Committee and to support a roll call of the vote.
